CAMAYA
COAST®

To our Dear Valued Guests,

Greetings from Camaya Coast!

We are pleased to update you on the steps we are taking to fight COVID-19. We aim to provide herd immunity to our dedicated employees who are continuously serving you to make the resort safe for our guests. As of this writing, we've already vaccinated almost 80% of our employee and we aim to achieve 100% vaccination rate for all our employees before the end of this year.

Last July 15, 2021, FABakuna is launched in partnership with the Provincial Government of Bataan, Freeport Area of Bataan and other agencies, private & gov't organizations, a vaccination program that aims to vaccinate all locators listed under the FAB Community located in Mariveles, Bataan which includes Camaya Coast. Our Camaya Coast Employees and other partners began receiving their vaccine starting last July 15. We are also taking part in helping the community of Bataan to fast track the vaccination progress by volunteering in the program and providing logistics support to the nearby communities. This program is our latest initiative in our efforts to protect and ensure safety not only of our employees but of our customers as well, resort standard health and safety protocols are in place such as regular sanitation and disinfection of all facilities.

With these collaborative efforts, your safety and wonderful stay experience continue to be our top priority.

We are one with you in fighting COVID-19.

For more information and updates on our vaccination efforts, follow us on Facebook at https://www.facebook.com/OfficialCamayaCoast
